

BELLEFONTAINE WET

Result of the Election Held Their Yesterday.

LOCAL OPTION WAS DEFEATED.

Only Forty-One Votes Cast Against the Proposition and That Town Will Now Have Saloons—Twenty People Hurt at a Barn Raising—Death Caused By Electricity—Other Ohio State News.

BELLEFONTAINE, O., Oct. 6.—The vote upon the repeal of the local option ordinance, held here yesterday, shows a majority of 672 votes in favor of the repeal. The vote, however, did not show the strength of the "dry" vote, as it was decided by the "drys" to keep away from the polls entirely and in this manner ignore the election. The "wet" vote was not out in full strength, as it was not a regular election day, and the weather was fine for outdoor work.

The total vote cast last spring for mayor was 1,405. Total vote cast yesterday was 713, of which 41 were "dry" and 672 were "wet."

These figures are not official. The friends of the ordinance claim they can induce one councilman who has promised to vote "wet" to change his mind and thereby defeat the results of yesterday's test. But on the other hand, friends of the repeal of the ordinance say five of the eight councilmen have promised them that if they defrayed the expenses of the election, they would surely abide by the decision of the majority of the citizens who cast their ballots in obedience to the call for the election.

SEVERAL MEN BADLY HURT.

Twenty Workmen Hurled Fifty Feet to the Ground.

WOOSTER, O., Oct. 6.—While workmen were raising the roof on Daniel Wiles' barn yesterday at Golden Corners, eight miles north of this city, the framework broke just as the men had the roof timbers in position, letting the heavy mass of oak timber fall upon 20 men engaged in the work, and hurling them 50 feet to the ground. All of them received injuries, six of them having limbs broken.

Arthur Whonsetter received fatal internal injuries.

Reuben Whonsetter, right ankle broken.

Henry Snell, three ribs broken.
Cyrus Ewing, jaw broken.
George Snell, internal injuries.
Melvin Reed, internal injuries.
The accident was witnessed by 300 people, who had gathered to assist in the work.

Captured After Years.

HAMILTON, O., Oct. 6.—Word has been received here that Lewis Vanhise, wanted at Westchester, O., for murder, is under arrest at Salem, Or. Vanhise was indicted by the Butler county grand jury in October, 1891, for the killing of old man Cutler, aged 76 years, at Hart's saloon, in Westchester, September, 1891. Vanhise had been raising a disturbance in the saloon, and Cutler stepped up to him and asked him to be more quiet. Vanhise pulled his revolver and struck Cutler a fearful blow on the temple, fracturing his skull. Cutler died the next morning.

Killed by Electricity.

STUBENVILLE, O., Oct. 6.—Benjamin Duvall, son of ex-Councilman Jackson Duvall, was instantly killed at the powerhouse of the Stubenville Gas and Electric Light company. He was working at a machine when his right arm came in contact with a metal brush, while his left hand was resting on the metal disk. This formed an electric current of 1,000 volts through his body. He was 27 years of age and unmarried.

Lumber Failure.

DAYTON, O., Oct. 6.—Pierce & Coleman, the largest lumber dealers in this section, have been levied upon by the sheriff, with cognovit judgments taken in Lucas county, amounting to \$73,990.80. The judgments taken are as follows: In favor of Joseph C. Pierce, \$54,499.93; Samuel W. Davies, \$16,818.95; Henry Coleman, \$2,671.42. The assets of the concern are fixed at \$90,000; liabilities, \$125,000.

Suicided to Keep From Testifying.

HOUSTON, O., Oct. 6.—Mrs. Jacob Day, wife of a farmer near this village, committed suicide by taking morphine because she had been subpoenaed to attend a trial in Troy, O., in which her daughter was held for infanticide.

Buggy Plant Destroyed.

CANTON, O., Oct. 6.—Early yesterday morning fire completely destroyed the plant of the Canton Buggy and Gear company. Loss estimated at \$20,000. Insurance comparatively small. Fire of incendiary origin.

CONFERENCE OF IRON MEN.

Steel Products Will Likely Be Advanced in the Near Future.

CHICAGO, Oct. 6.—The Times-Herald says: Steel products are likely to advance in price. Yesterday in the office of John W. Gates, president of the Illinois Steel company, a conference was held. There were present H. C. Frick, chairman of the executive committee of the Carnegie Steel company; John G. A. Leishman, president of the company; General Sales Agent Peacock of the Carnegie company; John W. Gates of the Illinois Steel company, Captain W. L. Brown, director of the Illinois Steel company; John C. Fleming, western

agent of the Carnegie company, and others.

It was reported after the conference that the price of Bessemer billets is to be advanced immediately from nominally \$20 a gross ton to \$22 or \$24 a gross ton.

An agreement is to be entered into between the Illinois Steel company and the Carnegie company as to the quality of North Chicago structural iron works of the steel company, so that competitive prices between the two concerns shall not exist.

That John D. Rockefeller has purchased the Johnson iron works of Loraine, O., and will combat the supremacy of the Carnegie company in the west.

That there is likely to be a shutdown of the rail mills of the country owing to slackness of trade.

NEW ORDER OF WORKINGMEN.

"Free Ballot" the Motto of the "Minute Men of '96."

WASHINGTON, Oct. 6.—M. J. Bishop, general commander, and A. E. Redstone, adjutant general of the Knights of Labor of this city, have issued a call for a new organization of workingmen, with headquarters in this city, to be known as the "Minute Men of '96." It is to be in part a secret organization, and "camps" are to be organized all over the country, with secret instructions as to the manner in which the order proposes to carry out its purposes. The call says:

"The conditions, which confront the workers demand that immediate steps be taken to organize in defense of a free and untrammelled suffrage. We have, therefore, established a national patriotic association, to be known as the 'Minute Men of '96,' for the purpose of off-setting the intimidation and coercion which is being practiced in every state of the Union."

Adjutant General A. E. Redstone was one of "General" Coxey's aides in this city on the occasion of his good roads campaign two years ago.

KILLED BY A SPIDER'S BITE.

The Death of an Indiana Man Attributed to It.

SEYMOUR, Ind., Oct. 6.—Saturday night shortly after Frank Hazzard of Reddington, this county, had retired to bed, he felt something bite him on the ankle. Rising and looking for the cause, he found a black spider crawling over his wife, and came to the conclusion that he had been bitten by the insect.

Feeling a queer sensation through his system, he became alarmed. He dressed himself and went to consult Dr. Joseph H. Davis, who proscribed for him, and Mr. Hazzard returned home. Instead of getting relief he grew steadily worse and died Sunday morning at 8 o'clock in great agony.

Mr. Hazzard was the very picture of health, weighing over 200 pounds, and was held in highest esteem by all his acquaintances.

HYPNOTISTS RESPONSIBLE.

They Must Pay For Damage Done by Their Subjects.

ATLANTA, Oct. 6.—If the ruling of Judge Foute of Atlanta obtains hypnotists will have to be very careful what they order their subjects to do. The judge holds that the hypnotist is directly responsible for the acts of his subjects.

During a performance at a local theater the subject of hypnotism imagined he was a monkey. He grabbed a hat off a man in the audience and bit a piece out of it. The professor and his business manager declined to make good the cost of the hat and the hypnotist was prosecuted before Judge Foute upon a charge of malicious mischief.

The judge sustained the charge and bound the hypnotist over to a higher court.

AN OLD LADY MURDERED.

Her Clothing Saturated With Oil and Then Set on Fire.

CORNISH, Me., Oct. 6.—Mrs. Betsy Hobbs, a widow, aged 70 years, was brutally murdered at her lonely home in Maplewood, in the western part of Parson's Field, yesterday, and her body was nearly entirely destroyed by fire. The motive for the crime and murder are unknown.

The woman's clothing had been saturated with kerosene and a match applied. The body was rescued from the flames but not until it had been badly burned. On her neck and head were several holes of the size of buckshot. Searching parties were organized to hunt for the murderer, but so far no clew has been discovered.

Li Hung Chang Heard From Again.

NEW YORK, Oct. 6.—A cable from Tien-Tsin, China, reports that the imperial secretary, Li Hung Chang, arrived at that port yesterday morning. He was accompanied by his entire suite, and all members of the party are said to be well. Li left immediately for Peking, where an audience with the emperor will take place.

Turkey's Foreign Policy Changed.

CONSTANTINOPLE, Oct. 6.—Karathodor Pashla, formerly governor of Crete, and the Turkish plenipotentiary at the Berlin congress of 1878, has been appointed first translator to the sultan, and it is understood that hereafter he will direct the foreign policies of the Turkish empire.

Annie Lewis, the Actress, Dead.

WASHINGTON, Oct. 6.—Miss Annie Lewis, the well known actress, died yesterday morning near this city of consumption.

SPANISH DEFEATED.

General Weyler's Western Campaign a Failure.

THREE BATTLES WERE FOUGHT.

Spanish Soldiers Defeated and Forced to Retreat By General Maceo's Men—Correspondents Not Allowed to Send Out the News—Filibustering Steamers Closely Watched.

HAVANA, Oct. 6.—Captain General Weyler's initial operations inaugurating the campaign in the extreme west, intended to entrap Maceo or defeat and drive him east, have proved a failure. General Melguizo, who as military governor of Pinar del Rio, was delegated by the captain general to start the ball, has been defeated in three successive engagements with Maceo in the mountains of Pinar del Rio, where, with the combined columns of Colonels Francis and Hernandez, he attacked the rebel positions. The Spanish columns suffered tremendously and were compelled to retreat to the coast.

Maceo's forces outnumbered the loyal troops four to one. He commanded in person, surprised the Spanish camp at night during a terrible rainstorm, and besieged it for 18 hours. The commander finally evacuated it and sent his way out, retreating toward the coast, to telegraph Captain General Weyler at Havana that another victory had been won. Trustworthy unofficial reports of the engagement give the Spanish losses as 59 killed and 64 wounded. The rebel loss was 17 killed and 23 wounded.

The news fell like a bombshell in the palace. The captain general will not even permit the Havana representatives of the Madrid papers to wire the facts, and he gave strict orders to the press censor and postoffice officials to use every effort to prevent the news of the failure of his plans from getting out. The editor of El Diario del Ejercito, the army organ, whose paper is seldom if ever censored, for daring to print a few details was called to the palace by the captain general and severely reprimanded.

WATCHING FILIBUSTERING STEAMERS

Three Vessels Being Detained in Port at Jacksonville, Fla.

JACKSONVILLE, Oct. 6.—"If the Dauntless attempts to leave port tonight I will sink her." That was the message which Captain Kilgore of the United States revenue cutter Boutwell sent yesterday afternoon to Captain Lomax of the Dauntless. Captain Kilgore sent the message because he is convinced that the Dauntless is preparing to put to sea to meet the Laurada, which is coming south. From the Laurada arms and men will be transferred to the Dauntless, and the latter will land the expedition in Cuba.

In addition to these expeditions the Junta's agents here are preparing, it is reported, to dispatch the Commodore to Cuba and later the Three Friends, when the latter vessel which has been libeled by the United States government, is allowed to give bonds.

The three vessels, the Dauntless, the Commodore and the Three Friends are now in port up at the same wharf, while 50 yards away lies the cutter Boutwell with port holes open, and guns shotted ready to fire on either of the suspected steamers which may attempt to leave Jacksonville without satisfying the authorities that no violation of the neutrality laws is intended.

Steam was made yesterday on the Three Friends for the purpose of blowing the water out of her pipes, and no sooner did the black smoke begin coming from her stack than a boat shot out from the side of the revenue cutter Boutwell and came over to the steamer. In the boat were Captain Kilgore and his second lieutenant. The junior officer went aboard the Three Friends and remained all day.

It is alleged by the Spanish consul that a secretly organized company exists here for the purpose of sending expeditions to Cuba.

CENSORSHIP ADVICES.

Weyler's Account of a Few Recent Happenings in Cuba.

HAVANA, Oct. 6.—Later advices from Matanzas say that it was Lopez, the insurgent leader, and not Serafin Sanchez who was killed in the engagement at the reserve plantation.

News has been received here confirming the report that the insurgent leader, Alvarez, was among the killed at the fight which recently took place at Ceano, during which 15 insurgents were killed and 16 were wounded.

A special dispatch received here says that Roban, the well known insurgent leader, died a few days ago of wounds received in battle.

The rebels who raided and burned the town of Las Canas, near the trocha, last week, are reported to have been led by a Cuban boy, 17 years old, a son of General Carrillo of Remedios.

Traffic has again been resumed over the Western railway. Trains now running through from Artemisa, on the trocha, to Pinar del Rio city.

FIVE PEOPLE INJURED.

Passenger Train Crashes Into a Standing Locomotive.

HAZLETON, Pa., Oct. 6.—While trying to make a flying switch near here yesterday a Lehigh Valley passenger train crashed into a locomotive on a siding, smashing in the end of the baggage car and disabling the passenger locomotive.

All the passengers on the train were severely shaken up. Among those most seriously hurt are:

Mrs. Harry Price of Sandy Run, arm cut and body bruised.
P. B. Cunningham of Allentown, head lamed.
Dominick Cossley of Brooklyn, forehead cut.
Mrs. R. Koslowski of Hazleton, neck bruised.
Brakeman Theodore Herser severely bruised.

TOO MANY MORMONS.

An Outbreak Against Them Expected in Eastern Kentucky.

GRAYSON, Ky., Oct. 6.—Mormon elders are swarming like locusts in Eastern Kentucky, taking advantage of the intense political excitement. They are moving, selecting positions, gaining footholds and laying lines for the severest religious conflict of modern times. There are over 1,000 picked men in the field. They scout in pairs, go "footback," enter every cabin, preach in every grove and schoolhouse, sow their literature knee deep. They divide the field into states, townships, boards and wards, have presidents, teachers, prophets, elders, etc. Each worker makes a weekly report to his higher officer. They swap, shift, change, separate and hold conferences as circumstances demand.

There is now being planned an alignment of forces in eastern and western Kentucky to invade central Kentucky. The only opposition comes from "the mules," a mutual protective order which has passed out the word to mountain householders that if any one of these Mormons is fed or lodged the feeder will be the center of attraction in a neekie party.

Neal's saddlebag college of mountain evangelists have begun to ride and preach against the Mormons.

An outbreak is expected hourly in this section.

ARMENIANS COMING OVER.

They Will Be Cared For by the Salvation Army Officers.

NEW YORK, Oct. 6.—A cablegram has been received at the Salvation Army headquarters from General Booth, stating that a contingent of 150 Armenians, who have escaped the recent massacres in Constantinople, are now on their way to New York under the auspices of Miss Frances Willard. Instructions were contained in the cablegram to Commander Booth-Tucker to meet them on their arrival and to do what is possible to provide for their temporary necessities.

Commander Booth-Tucker said that it is intended, immediately after their reception, to distribute them as far as possible in small numbers among friends in different parts of the country. Arrangements are also being made to settle a number of them on a Salvation Army farm colony.

Electric Motor a Success.

NEW YORK, Oct. 6.—An electric motor made its first public trip yesterday morning on the Third avenue elevated road, on the branch running down Thirty-fourth street from Third avenue to the Long Island city ferry. The first train was started at 9 o'clock and from that time on the trips were made regularly. Apparently everything went smooth and they carried passengers regularly. The storage battery has 256 storage cells, of two volts each. The motor will be used on this branch alone until its success is assured before it is put on the main line.

Father and Daughter Assaulted.

BEN FRANKLIN, Tex., Oct. 6.—D. Knowles, an old citizen, and his married daughter were assaulted at their residence about seven miles south from this place last night and probably fatally injured by unknown persons. Knowles and daughter were both assaulted by one or more persons and were seriously injured on the head with an ax or some blunt instrument. Robbery is suspected as the object of the assassins. Knowles died today and his daughter may recover.

General Brooks' Latest.

LEADVILLE, Colo., Oct. 6.—General Brooks and his officers have practically decided on a provision for defending the endangered mines by placing cannon on Carbonate hill, which commands most of them. The next object of attack, if further attacks be made, is pretty well understood to be the great pumping plant of the Maid of Erin mine, which drains the Mahla, Emmett and Marion mines, which are now assuming work, as well as many others.

Off Go the Buttons.

HOBOKEN, N. J., Oct. 6.—The button craze has received a setback here. Pupils in the schools have all taken to wearing them so extensively that political debates took the place of study and recreation. President Russ of the school board has issued an edict that no children shall wear buttons of any sort during school hours. The janitor now has one of the largest collections in the city.

Peary's Companion Heard From.

LAWRENCE, Kan., Oct. 6.—Professor L. L. Dyche, the companion of Peary in his Arctic expedition, has been heard from in a letter received by his wife, written under date of Aug. 22, at Cook's Inlet. In it the explorer stated he had found the coveted specimens desired for the State university and that he was well and would be home early in October.

GIBRALTAR, Oct. 6.—The American warships Cincinnati and Bancroft are coaling here preparatory to sailing for the Leyant.

ENGLAND IS LIBERAL

Slowly Yielding on the Venezuelan Question.

JOSEPH CHAMBERLAIN'S VISIT.

Some Definite Understanding Has Been Reached Between England and the United States—Future Disputes to Be Settled by Arbitration—Secretary Olney Returns to Washington.

WASHINGTON, Oct. 6.—Secretary Olney has returned to Washington from his summer home at Falmouth, Mass., and has resumed the duties of his office. He brought with him a mass of papers relating to official business which has engaged his attention during his absence from the city and spent the morning principally in consultation with the assistant secretaries and other officials of the state department touching the public business.

Matters are said to be in better shape than usual at the state department at the beginning of the winter season, there being fewer issues of great importance pending and there are in less acute stages than is generally the case.

The Venezuelan controversy has progressed slowly, but in the main satisfactorily during the past summer, and a couple of notes have been exchanged between Secretary Olney and Lord Salisbury since the publication of the last batch of correspondence. They are understood to be purely argumentative in tone, and, while they do not by any means of themselves bring the negotiations up to the closing point, they mark a fair degree of progress toward the clearing away of mutual misunderstandings and tend to simplify the efforts making on both sides, not only to adjust the Venezuelan issue itself satisfactorily, but to effect an agreement at least upon a general set of principles that shall govern the settlement of future disputes between the United States and Great Britain by means of general arbitration.

There is a well defined belief in diplomatic circles here that, as a result of Joseph Chamberlain's visit to this country, some definite understanding has been reached between him and Secretary Olney in respect to a final settlement of the long-pending Venezuelan dispute. Just what the terms of the agreement are no one in Washington is prepared to say.

Secretary Olney and Ambassador Pauncefote are expected to get together during the present month, when the result of the conferences between Secretary Olney and Mr. Chamberlain will take formal shape in a proposition from the British minister to our secretary of state. This proposition, it is believed, will be so much more liberal than anything Great Britain has heretofore proposed that the United States will be able to accept it, and thus place Venezuela in a position for an amicable settlement of the question.

EXPECTING TROUBLE.

United States Troops Sent Into the Choctaw Country.

WASHINGTON, Oct. 6.—At the request of the interior department, the secretary of war has sent troops to Tuskahoma, in the Choctaw country, to guard against trouble which is apprehended by Agent Wisdom when the new chief of the tribe is installed.

The order was sent to General Merritt at Chicago, and the troops sent forward were two troops of cavalry who were at the practice camp, Swamp lake, near Pond creek, just west of the Oklahoma line. The troops made a forced march and General Merritt has reported by telegraph that they have arrived at Tuskahoma. The troops were placed entirely under the orders of Indian Agent Wisdom.

A RUN FOR THEIR MONEY.

Brazilians Withdrawing Deposits in a Government Society.

NEW YORK, Oct. 6.—The Herald's correspondent in Rio Janeiro telegraphs that there has been a run on the society known as the Caixa Economica. The funds of the society are guaranteed by the government, but numerous persons withdrew their deposits.

Coffee producers and exporters are greatly alarmed at the fall in prices in Europe. The agricultural congress in Sao Paulo has proposed the foundation of a bank for the needs of rural depositors. Foreign capital, it is said, can be procured to open such an institution.

Fire in a Hotel Basement.

INDIANAPOLIS, Oct. 6.—An electric wire set fire to the basement of the Circle Park hotel yesterday morning. As the firemen went into the basement gas exploded enveloping the men in flames and painfully burning Fire Chief Webster and Fireman Back Stahlman. The hotel was badly smoked, and the guests hurriedly prepared to leave, but the fire was controlled before it could spread to the upper floors.

Rumors of a Collision.

OTTAWA, Ont., Oct. 6.—A report is circulated here that a collision had occurred on the Canadian Pacific at Bat Portage, in which four persons were killed. The report can not be verified from here.

To Depose the Sultan.

LONDON, Oct. 6.—The Chronicle says that it learns from a good source that the czar and Lord Salisbury have agreed upon a policy for the ultimate deposition of the sultan.

DEMOCRATIC TICKET.

President,
WILLIAM JENNINGS BRYAN,
of Nebraska.

Vice President,
ARTHUR SEWALL,
of Maine.

Congress,
W. LARUE THOMAS,
of Mason.

WILLIAM JENNINGS BRYAN has no Hanna and no trusts with their millions to back his campaign, but he is getting there all the same.

PATRIOTISM demands that every voter who has the interest of his country at heart should register to-day. The polls remain open until 9 o'clock to-night.

No voter can afford not to register. The polls remain open until 9 o'clock to-night. If you are able to get about and fail to register, it raises the suspicion that you have been paid to remain away.

MR. COCKRAN is campaigning in the private ear of President Bacon, of the B. and O. S. W. This is a statement from a Republican paper. If Mr. Bryan travels in a special train his friends pay for, it is not furnished by the railroads.

TO BE real English, you know, the bolsters should call themselves Tories, Liberals or Conservatives, how Jove, old fellow.—Cynthia Democrat.

Well, they will not sail under the name of Democrats. That's settled. The only Democratic ballot will be one headed by William Jennings Bryan's electors.

EVERY director, officer or stockholder in every trust, syndicate or jobbing arrangement in America is for the election of McKinley and the perpetuation of the gold standard. Such men are afraid to trust Mr. Bryan, remarks the Cynthia Democrat. They know he's opposed to them, and will fight 'em to the bitter end. He's the man the people want.

THE men who a century ago called Thomas Jefferson a "demagogue" for his faith in and reliance upon the people, are forgotten. History has scarcely preserved their names from oblivion, while it has enshrined his. The same fate awaits those who to-day are denouncing Bryan as an "anarchist" and a "socialist."

It is rumored that Republicans will use money to-day to induce some voters to remain away from the registration booths. With such a rumor current, you will place yourself under suspicion of having bartered away your franchise, if you fail to register. The law gives you until 9 o'clock to-night to have your name enrolled.

THIS ADMITS ALL THAT DEMOCRATS CLAIM.

The platform adopted by Indiana Republicans in 1890 contained the following significant declaration on the subject of coinage:

"We cordially commend the action of the Republicans in Congress on the subject of free coinage. The law recently enacted was passed in spite of persistent Democratic opposition. Under its beneficent influence silver has rapidly approached the gold standard of value, farm products are advancing in prices and commerce is feeling the impulse of increased prosperity. It will add more than \$50,000,000 annually of sound currency to the amount in circulation among the people, and is a long yet prudent step toward free coinage."

WHAT HARRISON SAID.

The opinion of President Harrison on the causes of higher prices is set forth in his annual message to Congress December 1st, 1890. He then said:

"The general tariff act has only partially gone into operation, some of its important provisions being limited to take effect at dates yet in the future. The general provisions of the law have been in force less than sixty days. Its permanent effect upon trade and prices still largely stand in conjecture. It is curious to note that the advance in the prices of articles wholly unaffected by the tariff act was by many hastily ascribed to that act. Notice was not taken of the fact that the general tendency of the markets was upward from influences wholly apart from the recent tariff legislation. The enlargement of our currency by the silver bill undoubtedly gave an upward tendency to trade and had a marked effect on prices; but this natural and desired effect of the silver legislation was by many erroneously attributed to the tariff law."

THE POOR MAN'S SAFE GUARD.

When the two great political parties of the country had nominated men to represent their views, it was gladly heralded over the land that, as each had selected a clean, pure man, that the campaign would be conducted upon a high plain, and no dirt would be thrown by either party. The Democratic press, that remains true to its party, has kept the faith, and no vile abuse has crept into its columns, but the Republican press and the organs of the boating Democrats have never had the decency to even call the Democracy by its time honored name, and have hurled slanderous epithets and vile nicknames at the Democracy and its nominees, until respectable people are disgusted. Retaliation in kind would be easy, but self respect forbids. Republicanism and McKinley are far more open to criticism than Democracy and Bryan. The latter have always been bimetalists, and are genuine bimetalists now. The former have always claimed to be for bimetalism and now say it is right, but are for the single gold standard until Europe—which means England—says we may have free coinage. As the patriots of 1776 were called traitors and rebels because they would not yield to England, so the Democratic patriots of to-day are called anarchists and repudiators because they will not wait for England's orders.

As the terms rebel and traitor became badges of honor in 1776, so will the Republicans make honorable in 1896 the terms "anarchist" and "repudiator." Such terms are daily applied to millions of the most honest and upright citizens of this land, and, from a Republican standpoint, no one is honorable unless he be a bondholder, a banker, or member of a trust or corporation.

The Republican press and speakers everywhere ridicule and slander the farmer and the laborer and the business man of small means. They openly boast of the money they have, and every day drive thousands of men to Canton, the Mecca of McKinleyism, and force the laboring classes to join McKinley clubs, ride on McKinley passes and shout for McKinley's election. They boldly announce that if they cannot buy or bulldoze the voters, they will buy up the officers of election. No wonder such a party calls decent people anarchists. The vilest serfdom of Europe is not worse than the Republican serfdom to which we are rapidly drifting.

Some one has wisely said, "that no one is for Bryan but the people." This is comparatively true. The press is against him. The banks and trusts are against him. The railways and insurance companies oppose him. Aggregated wealth wherever found denounces him as a repudiator, and yet, when you count the individual votes of this powerful opposition, they do not amount to half a million, out of our population of seventy million. Where then is the danger? Every one of the opposing forces has a legion of employes under control, and these employes, under threats of discharge, of shutting down shops and restricting amount of labor, with gaunt poverty staring them in the face, are commanded to vote as their employer thinks his interests demand, or be driven upon the cold charities of a pauper community.

Thank God! we have the secret ballot—the only safeguard the poor man has. No one need see how he votes, unless the officers of election are purchased. If we cannot keep the ballot pure, then anarchy will come, and free institutions be but a name.

Let the people be true to themselves. Vote as they please, and Bryan will be elected, and prosperity follow as sure as daylight follows darkness.

THAT "STANDARD LIE."

"Keep your shirt on," was the advice given by Hon. Stephen A. Douglass to his Republican friends when he spoke here some days ago, but the editor of the Public Ledger does not seem disposed to heed that advice.

The following appeared in a recent issue of the BULLETIN:

"The Republican party believes in the use of both gold and silver as standard money, and condemns the present Democratic administration in its efforts to demonetize silver."

"The above is a plank," the BULLETIN stated at the time, "from the Republican National platform in 1888. Quite different it is from the platform Mark Hanna and Wall street forced into the present g. o. p. platform."

The editor of the Ledger proceeded at once to rend his shirt, and fill the air, and the columns of his paper, with the terms "lie" and forger. It said:

The BULLETIN not only forged the word "standard" into its lie, but it italicized it to make the falsehood more emphatic.

The BULLETIN has paid no attention to the Ledger's howl. We are not in the "lying" and "forgery" business. The people know that. The plank quoted

"I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor attended me over seven weeks. When the abscess broke, the pains were terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it, and my husband, who was suffering with boils, took it also. It soon purified our

was taken from the columns of one of our exchanges. We presumed it was correct, and didn't go to the trouble of looking the platform up to verify it.

The point we advanced, however, was that the financial plank of the Republican platform a few years ago was so different from the Hannaized platform of to-day. The Ledger seeks to create the impression that the Republicans never did declare in favor of both gold and silver as "standard money." He objects seriously to the word "standard." Well, it is not necessary to go as far back as 1888 to show he is not with his party.

If he will look up the platform adopted by the Republican National convention in 1892 he will find this plank:

"The American people, from tradition and interest, favor bimetalism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will maintain the parity of values of the two metals, so that the purchasing power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and workingmen, demand that every dollar, paper or coin, issued by the government, shall be as good as any other."

Just four years ago, the Republicans not only declared in favor of both gold and silver as standard money, but they demanded it.

Now will the editor of the Ledger go off and tear his shirt some more?

NO NEW GOSPEL.

I do not come to preach to you a new gospel. The position which we take on the money question is an old position, not a new one. We are not flying in the face of natural laws, as our opponents sometimes assert, nor are we trying to overturn the principles of political economy. Those who advocate bimetalism are the only ones in this campaign who are telling economic truths and defending the natural laws of trade. When I define an honest dollar as a dollar which does not change in its purchasing power, I give to you a definition which is indorsed by all writers on political economy.—W. J. Bryan.

JOHN A. LOGAN WANTED MORE MONEY.

The people of the United States just now are listening with serious attention to the summary of the late Senator John A. Logan:

You may theorize and argue until you are hoarse, yet you will fail to get the people to prefer low prices to high ones for their products. They know that one bushel of wheat at \$1.25 in currency will buy one acre of government land, while it takes two and a half bushels at 50 cents to purchase it, though it be in gold. They know that \$1 in paper, if legal tender, will pay \$1 of taxes as well as \$1 in gold. They know well enough from experience that if you run down prices by lessening the currency there will be no corresponding decrease in taxes and salaries of county, State and municipal officers, nor in the debts they owe.

Your Best Buying Interest

Centers here, as we pledge a just equivalent for every dollar you spend with us. DRESS GOODS FIRST.—Have you seen our stock? When we tell you it is the largest in town, with every novelty of the season at least represented, don't take our word for it. Come, see, prove the statement is true, without a glint of exaggeration. Give us a chance to show you the following double fold, all wool Novelty Suitings, nobly, effective and in charming autumn colors, only 25c. Forty-inch all wool Jacquards, in the predominating tints of green, blue, brown, etc. Wonders of cheapness at 49c. Scotch Plaids in Rob Roy colors, all wool, silk striped, handsome for waists or the stylish plaid skirts, 75c. Boucles, ultra fashionable, heavy, crispy, lustrous as silk. Models of superb, exclusive style, 1.00, 1.50, 2.00. Checks, the ever-popular, in black and white, blue and white, brown and black and other tasteful combinations, 29c., 49c.

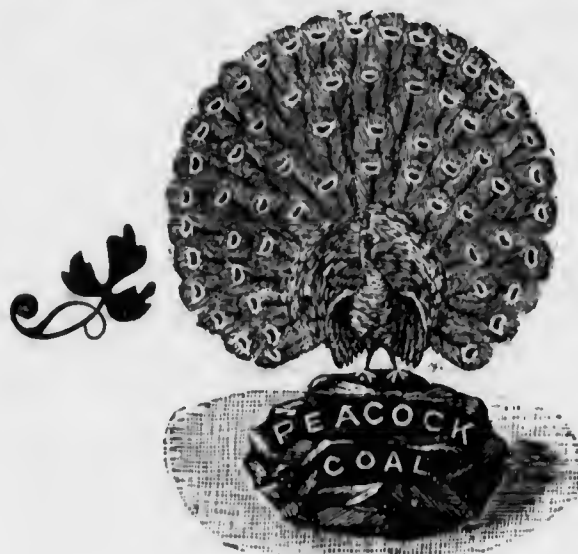

DRESS PATTERNS.—No two alike, with each style confined to us in this section. Black, colors and various weaves represented, each with the importer's stamp of elegance. Per suit, 4, 5, 6, 8, 10, 12 and 14 dollars.

THAT WINTER WRAP.—Don't buy it before a visit to our cloak room, for we're equipped to serve you to your perfect satisfaction. Realizing that quickly changing styles make cloak buying a frequent necessity and high priced wraps consequently impracticable, our garments this year are nearly all at popular prices. For 3.50, black Beaver or Boucle box-front Reefers, trimmed in large buttons. Black Beaver Capes, braid trimmings, graceful sweep. For 5.00, Kersey, Camel's hair, Beaver and curled Astrakan fly-front coats. Colors navy and black. The same materials and colors in Capes. Some are trimmed in three rows of silk braid. For 7.50; high grade Melton and Boucle Coats and Capes in black, navy and brown, with large and small combination button trimmings. For 10.00, high button shield front and double-breasted coats, navy, tan, black velvet collars, button and silk frog trimmings. Capes in Broadcloths and Boucles. Braid, button, satin and velvet trimmings.

HERE AND THERE.—Pure silk Watch Guards, silk slide, in black only, 10c., 15c. Louisiana, cotton cloth for waists, shirts and wrappers, extra heavy, solid and figured, black and colored, thirty-six inches wide, 10c. a yard. Cotton Tape 2 1/2c. a bolt. Corset Laces, 2 1/2 yards long, three for 5c. Jet head Shawl Pins, 3 for 5c.

erick Bartlett, of this city, formerly Secretary of the Columbian Whaleback Steamship Company, has secured a franchise for a line extending along the Pacific slope the entire length of the Republic, and having branches through the richest mining and agricultural districts of the country. The venture has every appearance of one that means the development of the richest section of Mexico by American capital.

This doesn't look much like free silver is ruining Mexico, does it? If industry is paralyzed down in that country, why is our capital seeking investment there? Isn't it rather strange, too, that these Chicago capitalists should be arranging to send their money out of gold-standard United States into free silver Mexico?

WHEN SHERMAN WAS HONEST.

Legislation Alone Gives Value to the Precious Metals.

When John Sherman thought less of self and more of his country, and when he was less subservient to the money power, he wrote as follows in a report made to the United States Senate June 9, 1885. All his sophistry of to-day cannot weaken the force or cloud the truth of what he then said:

The annual supply of the precious metals has little or nothing to do with its value. What is it, then, that affects their value chiefly? Is it the demand? What is it that constitutes the demand for gold? Is it for the use in the arts? Very little of it can be used. Therefore, it is its use as money that creates a demand for it and gives it its value. If all the European States and our country were to-day to demonetize gold and remonetize silver would not these two metals immediately change places? Now, if this be true, what is it that creates the value of the precious metals? It is legislation. Legislation gives value to the precious metals and the commercial value simply records the condition of legislation with reference to the precious metals. Now, if legislation creates the chief demand for money, if we legislate so as to utilize silver, we increase the demand and thus increase the value of silver.

Kentucky owes much to it, and its great ten-day meeting, during which all the great horses of the country will appear, should be largely attended from our city.

THE Discovery Saved His Life. Mr. G. Caillouette, druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

HEAR BYRON TO-NIGHT.

The Eloquent Free Silver Republican of Bracken to Speak at the Court House. News From the Campaign.

Hon. W. A. Byron, the eloquent free silver Republican of Brooksville, will address the people of Maysville and vicinity to-night on the great issue of the campaign. The speaking will be at the court house, and everybody is cordially invited to hear him. Seats will be reserved for the ladies.

Mr. Byron needs no introduction to the people of this section. He has been a Republican leader in Bracken County for years, and has spoken in Maysville on several occasions. Like many other honest Republicans in this campaign, he refuses to follow McKinley into the gold-bug's net, but is out for Bryan and free coinage.

Let all turn out and hear Mr. Byron.

Judge C. W. Goodpaster, of Owingsville, assistant Boltoerat elector for this district, had an audience of only forty-two persons at Flemingsburg.

Hon. W. A. Byron received seventy-eight invitations to deliver silver speeches within the past week. He will speak at Flemingsburg to-morrow night.

Col. W. LaRue Thomas will speak at several points in Fleming County this week. He will be at Mt. Carmel Friday at 10 a. m., and Elizaville at 2:30 p. m.

CYNTHIANA, Ky., October 3.—The free silver Democrats held a meeting at the court house this afternoon. Col. W. LaRue Thomas and Hon. W. J. Stone addressed the audience, which was one of the largest that ever convened in the court house.

LOUISA, Ky., October 3.—(Special.)—H. Eddy, of Colorado, a free silver Republican, spoke here to-day to five or six hundred people in favor of Bryan. The audience was made up of members of all parties, but principally farmers. He spoke two hours and twenty minutes, and his utterances were well received. His effort is considered the best yet heard here on that side. He denied a charge that he owned silver mine stock.

Mr. Thomas A. Davis had an unusually large and attentive audience at Mayslick Saturday afternoon. When Hon. W. LaRue Thomas, candidate for Congress, spoke there he had sixty-two in his audience. Mr. Davis had nearly 100; and this in the face of a neighborhood fair and an auction sale in the town.—Public Ledger.

"Nearly 100!" What "neighborhood fair" was in progress Saturday? There was a fair (the Ewing) in progress the afternoon Mr. Thomas spoke at Mayslick, but we haven't heard of any fair near there last Saturday.

AT BURTONSVILLE.

The Democratic and free silver meeting at Burtonsville Saturday night, October 3rd, was well attended. The meeting was called to order by Precinct Chairman W. H. Thomas with a few appropriate remarks on free silver. He was followed by others of the home talent who made interesting speeches on the subject of free coinage. After speaking, a Bryan, Sewall and Thomas free silver club was organized with fifty members enrolled. E. G. Rayborn is President and J. F. Cole, Secretary. After appointing some committees the meeting adjourned to meet again Wednesday night, October 7th.

FROM THE WESTERN BORDER.

Editor BULLETIN: Last Thursday night Mr. Chas. D. Newell, of Maysville, addressed a large crowd at the Tangletown school house. He spoke for one hour and you may be sure the cause of bimetallicism was ably sustained. He showed the fallacy of a single standard and the evils attendant thereto. He showed the improbability of an international agreement for bimetallicism—that England will never agree to it, it being against her interest to do so. Altogether his address was replete with solid facts and were calculated to enlighten the minds of his hearers.

Our club now numbers ninety-seven members and we want to reach the 100 mark and if possible go above it.

By the way we have a good joke on our distinguished County Judge. He made an address to a few of the faithful at Abigail one night last week and in that address he transformed a mule into a cow. This was enough for some of the boys and after the speaking they could be heard on every side mimicking the mule and cow. Some of them say the cow is no good and want the honorable gentleman to transform it back into a mule. It may be that some of those terrible "anarchists" made this up but it is a good joke. Our club was represented at the Bryan reception at Augusta but not largely, owing to busy times.

We close by saying: Hurra for Bryan, free silver and the BULLETIN; may Bryan be elected, the BULLETIN's coffers filled with free silver dollars and peace and happiness reign supreme all over our beloved land. SILVER BOY. Tangletown, Ky.

PUBLIC SPEAKING.

Campaign Chairman Taylor makes the following announcements of public speaking:

Thomas and Pugh.

The Covington Commonwealth says: "The race between Thomas and Pugh in the Ninth district is exciting considerable interest outside of that territory. At this distance it looks as though Mr. Thomas is the better campaigner of the two, and that he is possessed of more resources as a man and is a better mixer than his opponent. In personal appearance, geniality, natural sprightliness and individuality he certainly has the advantage. He bears the stamp of a gentleman and possesses the confidence of all classes of his party and will come nearer pulling off a fair section from the Republican ranks than any Democrat in the district. Mr. Pugh's father-in-law, however, is as sly a politician as can be found in old Kentucky, and he steals around in his sock feet when he interviews the boys. His genius may make the campaign interesting."

Attention, Democratic Clubs.

The Bryan club of Germantown invites all the Bryan clubs of Mason County to meet in an all-day rally at the Germantown fair grounds, next Saturday, Democratic day. Prominent speakers will be heard during the day. Let all turn out.

A Startling Statement.

At Baltimore, the other night, General Palmer, who is running for President on the What's-its-name ticket, said he did not expect to be elected. The announcement has startled the civilized world. What the General really expects to do, we imagine, is to carry a precinct or two in Louisville, but that is extremely doubtful.—Cynthiana Democrat.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diamondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

Seems as if all things we like disagree with us, and all the things we don't like agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course, it isn't Nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he may eat what he likes and as much as he likes. Dr. Pierce's Pleasant Pellets are for people who are troubled with indigestion, particularly for those in whom it manifests itself in the form of constipation. The "Pellets" are quick and easy in their action. They are in perfect harmony with Nature. They effect a permanent cure. You need take them regularly only a little while. After that, use them occasionally when you need them—when you have eaten anything that disagrees with you. They may be taken just as freely as you would take water or any other necessity of life. Once used they are always in favor.

No man who fails to register to-day can vote in November.

REPUBLICANS

Of Indianapolis Form a Club and Indorse Nominee Bryan.

INDIANAPOLIS, IND., Oct. 1.—A free silver Republican club was organized here to-night, with Worth Wright President and Clarence E. Weir Secretary. One hundred and fifty have signed the roll, the declaration of which is that each member will vote for Bryan and Sewall.

President Wright has been a very influential Republican, and Mr. Weir resigned from the Marion Club, one of the most active Republican organizations of the kind in the State. He says there are hundreds of free silver Republicans in the city, and that the most of them will be with the new organization he and others have formed.

Purify your blood with Hood's Sarsaparilla, which will give you an appetite, tone your stomach and strengthen your nerves.

"A Yankee Drummer."

Frank Jones who appeared at the opera house last evening in his new play entitled "A Yankee Drummer" well sustained his reputation as a comedian far above the average. His character of "Shannon Hummer" is full of quaint and eccentric sayings, keeping the audience in a constant uproar. Miss Lillian Walton ably took the part of "Zana." The specialties rendered by "Si" and "Zana" were as good as we ever saw. It is one of the strongest companies we have had in many a day.—Zanesville Times.

TEMPLE CUP CONTESTS.

Baltimore Base Ball Club Wins the Third Game of the Series.

BALTIMORE, Oct. 6.—The Baltimore took their third straight game in the Temple Cup series from the Cleveland yesterday afternoon by dint of brilliant playing, both at the bat and in the field, together with a bit of good luck here and there. The price of admission was reduced to the old time scale, but the attendance was not materially increased thereby, although the weather was perfect and other conditions all that could be wished for.

The actual attendance was not announced yesterday, but it was about 6,000. Cleveland's men are woefully put out at the result and the Baltimore contingent look very glum when they talk about it. All hands leave for Cleveland today and the Baltimore say there will be but one game in the Forest City, which they expect to win, and thereby settle the contest for the trophy.

The game yesterday was close until the eighth inning when four hits, an error and some good base running, gave the champions three runs and put the result beyond doubt. The feature of the game was the brilliant outfield work of both teams, every man greedily accepting all chances and making the plays in fine style. The only exception was a poor throw by Burkett, which allowed Hoffer to score in the third. The following was the score:

AT BALTIMORE— R H E
Baltimore.....0 1 0 0 1 0 3 0— 6 8 2
Cleveland.....0 0 1 0 1 0 0 0— 2 10 2
Batteries—Hoffer and Robinson; Cuddy and Zimmer. Umpire—Emslie and Sheridan.

FOREST FIRES IN CALIFORNIA.

Torrents of Flames Rushing Down the Canons Toward Pasadena.

PASADENA, Cal., Oct. 6.—Forest fires are raging on the mountains, and only strong efforts prevented the fire from crossing Dark canon and sweeping the whole front range, on which the Echo Mountain hotel and Mount Lowe railway are located.

Those who were fighting the fire report a solid sheet of flame 45 feet high rushing and roaring down the canons, and it was only when it reached the low brush that they were able to cope with it at all. Then by back firing they managed to check it. It has burned over a strip over 20 miles long and from two to five miles wide. A huge fire is now burning in San Gabriel canon, a dense cloud of smoke obscuring the sky northeast of Pasadena.

Witness Drops Dead.

CHICAGO, Oct. 6.—Clifford B. Everham, quotation manager of the Western Union Telegraph company, died yesterday of heart disease. Mr. Everham was on the witness stand in the criminal court giving evidence in a wire-tapping case when he suddenly fell to the floor. The room was cleared out once and ever effort made to revive him, but he died within an hour. He had been an employee of the Western Union for over 20 years and was considered one of its best and most capable men.

Duel at a Dance.

AUGUSTA, Ky., Oct. 6.—At a dance at the home of Charles Delaney, near Fairview, this county, a quarrel arose between Walter Delaney, son of the host, and William Bye, a visitor. The two combatants and their friends repaired to the yard, where they came to blows. Delaney cut young Bye with a knife, when the latter struck Delaney in the head with a rock, from the effects of which he died in a few seconds.

Decision About Mail Matter.

WASHINGTON, Oct. 6.—Postmaster General Wilson has issued an order prohibiting such notices as "Please send out" or "Please post up" being placed on the wrappers of third class mail matter. Such notices will subject the matter to first class rates. The words "personal" or "to be called for" are deemed a part of the address and are permissible.

Death From a Blow of a Fist.

MEMPHIS, Oct. 6.—William Gaines, a negro desperado, killed Joseph St. Marie, white, an electrician, last night. St. Marie had asked the negro the hour. The negro told him it was none of his business. St. Marie looked at the negro a few seconds, whereupon the negro struck him with his first, breaking St. Marie's neck. The murderer escaped.

Ore Stolen.

VICTOR, Colo., Oct. 6.—The ore house at the celebrated May Bell mine on Straub mountain was broken into Sunday night and 65 sacks of ore, worth about \$60,000, stolen. There is no clew to the thieves. Every workman about the property was yesterday discharged.

Gold Reserve.

WASHINGTON, Oct. 6.—The treasury yesterday lost \$102,900 in gold coin and \$20,000 in bars, which leaves the true amount of the reserve \$125,100,896.

Murder and Suicide.

PEORIA, Ill., Oct. 6.—The bodies of Charles Williams and his wife, Belle, both colored, were found alongside the Rock Island railroad tracks. Each died from bullet shots in the head and the coroner's verdict was murder and suicide. Jealousy is the supposed cause.

Success and Sorrows.

NEW YORK, Oct. 6.—The life history of Albert Weber, the once wealthy piano manufacturer, is one of early success and succeeding sorrows. Weber, who married Irene Perry, the actress, has been declared insane and taken to Orient Point, L. I., for safekeeping. He is in the care of his mother.

Little Girl Burned to Death.

LOUISA, Ky., Oct. 6.—The 8-year-old daughter of Eph Small of Peach Orchard was burned to death. Her clothing caught fire. In her efforts to save her child the mother was severely burned.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
